1. Overview of business results, etc.

(1) Explanation of Operating Results

During the first nine months of the fiscal year under review, personal consumption in Japan remained strong against the backdrop of an improved income environment due to the entrenchment of wage hikes. In addition, inbound demand, especially tax-free sales, remained firm against the backdrop of the weak yen. Meanwhile, overseas, geopolitical risks continue, including U.S. trade policy, China's economic stagnation, and strained Japan-China relations. In addition, conditions such as fluctuations in financial and capital markets and exchange rate fluctuations continue to require close monitoring of the future.

In the reuse industry, the size of the market is projected to reach 4 trillion yen by 2030, and is continuing to expand (Source: "Reuse Data Book 2025 (2024 Edition)" (October 2025), The Japan Journal of Remodeling), reflecting moves to build a sustainable society and the growing awareness of reuse associated with these moves. In addition to an increase in services and channels, competition in acquisition and sales has only been intensifying due to increasingly active M&A activities through industry reorganization and many new companies entering the market. In the brand reuse business, the product market was soft in the first half of the year, mainly for high-end watches and brand bags, due to the impact of exchange rate fluctuations and other factors, but the overall product market was stable and recovering from October onward.

The Komehyo Group has set its Mission (the significance of its existence): We respect people for making products, thank people for providing products for use by other people, and make people who reuse such products happy, and by doing so, create an empathy-based recycling society. Guided by this mission, the Group will contribute to creating sound reuse markets in Japan and overseas and will promote initiatives to enable many people to become familiar with reuse and aware of its convenience, aiming to achieve its Vision (what it aims to be like): We develop a concept of environmentally and socially conscious recycling into a culture.

Guided by these ideas, the Group worked to achieve its Vision. As a result, the Group's net sales for the nine months ended December 31, 2025 increased 40.9% year on year to 157,506 million yen. In the Brand Fashion business, sales were extremely strong, with a series of companies recording record levels of sales. In the Tire and Wheel Business, sales also increased, mainly due to significant growth in sales of summer tires, wheels, and used commercial products.

Regarding the operating profit, ordinary profit, and profit attributable to owners of parent, operating profit increased 12.6% year on year to 5,728 million yen, ordinary profit also increased 3.9% year on year to 5,170 million yen, but profit attributable to owners of parent decreased 15.7% year on year to 3,187 million yen.

Consolidated results (Millions of yen)	Nine months ended December 31, 2025	Nine months ended December 31, 2024	YoY	Change
Net sales	111,815	157,506	40.9%	45,690
Operating profit	5,086	5,728	12.6%	641
Ordinary profit	4,976	5,170	3.9%	193
Profit attributable to owners of parent	3,780	3,187	△15.7%	△593

Performance results by business segment are as follows.

① Brand Fashion business

In the Brand Fashion business, among domestic Group companies, Komehyo Co., Ltd., opened KOMEHYO VINTAGE TOKYO atelier, its second vintage specialty store, as well as two flagship stores and 15 purchase centers. K-Brand Off Co., Ltd. opened two stores with sales facilities and 3 franchise purchase centers, while RK Enterprize Co., Ltd. opened one purchase center. In addition, overseas Group companies opened two stores at SAHA KOMEHYO COMPANY LIMITED(Thailand), two stores at KOMEHYO MALAYSIA SDN.BHD.(Malaysia), one store at KOMEHYO SINGAPORE PTE. LTD.(Singapore), three stores at KOMEHYO BRAND OFF ASIA LIMITED(Hong Kong), one store at KOMEHYO SHANGHAI TRADING CO., LTD. (China), and BRAND OFF TAIWAN CO., LTD. (Taiwan).

Regarding the purchase price of used goods, the Company strengthened existing stores by enhancing promotional activities and campaigns in preparation for the year-end sales season in addition to holding purchase events and aggressively opening

purchase centers, among other measures. For purchases from individuals, appropriate purchase prices were set in accordance with market prices. In addition, to expand the lineup of products offered at retail stores, the Company made corporate purchasing via auctions for corporate customers operated by Group companies.

In terms of sales, the Company promoted retail sales by optimizing store inventories to meet the active demand period and deepening relationships with customers through customer service. On the other hand, the Company utilized corporate sales for highly asset-oriented products such as gold bullion, in response to soaring market prices driving up purchases from individuals. In addition, the Company focused on improving company-wide inventory turnover and flexibly selected sales channels in response to market trends.

In terms of profit, the Company focused on improving profitability through aggressive retail sales, while keeping a close eye on the trend of commodity prices. At the same time, the Company strategically utilized corporate purchases and corporate sales in order to maintain appropriate inventory turnover and asset liquidity. Through these measures, the Company strived for a stable inventory cycle while appropriately controlling the risk of market fluctuations. However, the gross profit margin declined year on year due to changes in the product mix and an increase in the ratio of corporate sales.

As a result of the above, the net sales of this segment for the nine months ended December 31, 2025 were 152,327 million yen (up 42.2% year on year) and operating profit was 5,235 million yen (up 14.3% year on year).

② Tire and Wheel business

With regard to sales of tires, wheels and custom-made parts, despite stagnant demand for winter tires due to light snowfall, sales of summer tires and used commercial products expanded, and exports of in-house designed wheels increased significantly over the previous year, maintaining revenue growth against a backdrop of solid demand both in Japan and overseas.

As a result of the above, the net sales of this segment for the nine months ended December 31, 2025 were 5,150 million yen (up 10.5% year on year) and operating profit was 347 million yen (down 10.1% year on year).

③ Real Estate Leasing business

In the Real Estate Leasing business, the Group manages the leasing of stores and leases the Group companies' major stores to the Group companies.

The net sales of this segment for the nine months ended December 31, 2025 were 274 million yen (up 2.5% year on year) and operating income was 92 million yen (up 4.7% year on year).

(2) Explanation of Financial Position

(Assets)

Total assets as of December 31, 2025 were 106,414 million yen, an increase of 17,789 million yen from the end of the previous fiscal year. This was mainly because of increases of 4,115 million yen in cash and deposits, 1,863 million yen in accounts receivable-trade, 8,136 million yen in inventories, 1,399 million yen in "other" in current assets (deposits, etc.), 585 million yen in buildings and structures, net, 249 million yen in "other" under non-current assets (such as tools, furniture and fixtures), 399 million yen in goodwill, 486 million yen in "other" under intangible assets (such as software), and 548 million yen in investments and other assets.

(Liabilities)

Total liabilities as of December 31, 2025 were 71,446 million yen, an increase of 16,019 million yen from the end of the previous fiscal year. This was mainly because of decreases of 942 million yen in long-term borrowings and 285 million yen in provision for bonuses were more than offset by increases of 728 million yen in accounts payable-trade, 15,280 million yen in short-term borrowings, 160 million yen in accounts payable-other, 498 million yen in income taxes payable, 155 million yen in contract liabilities under current liabilities, 144 million yen in asset retirement obligations, and 274 million yen in "other" in contract liabilities (deposits received, etc.).

(Net assets)

Total net assets as of December 31, 2025 were 34,968 million yen, the increase of 1,769 million yen from the end of the previous fiscal year. This was mainly due to the recording of profit attributable to owners of parent of 3,187 million yen, which exceeded 367 million yen in foreign currency translation adjustments and dividends of surplus of 1,152 million yen.

As a result, the equity ratio stood at 32.5% (compared to 37.0% at the end of the previous fiscal year).

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

The consolidated financial forecast for the fiscal year ending March 31, 2026 has been revised as follows. For details, please refer to the "Notice Concerning Revision of Earnings Forecasts" announced on November 7, 2025. Please note that there will be no revision of the dividend forecast in conjunction with this revision of the earnings forecast.

Consolidated earnings forecast	Full fiscal year ending March 2026 (Millions of yen)
Net sales	201,600
Operating profit	7,470
Ordinary profit	6,730
Profit attributable to owners of parent	3,980

(3) Notes to Quarterly Consolidated Financial Statements

(Notes regarding accounting treatments specific to the preparation of quarterly consolidated financial statements)

(Calculation of tax expenses)

Regarding tax expenses, we reasonably estimate the effective tax rate after applying tax effect accounting to the consolidated net income before taxes for the consolidated fiscal year including the current third quarter and multiply the quarterly net income before taxes by the estimated effective tax rate. It is calculated as follows.

However, for companies whose tax expenses would be extremely unreasonable if calculated using the estimated effective tax rate, the amount calculated using the effective statutory tax rate is recorded.

(Notes on segment information)

I For the nine months ended December 31, 2024 (from April 1, 2024 to December 31, 2024)

1. Net sales and income (loss) for each reportable segment and the breakdown of revenue

(Thousands of yen)

	Reportable segments			Total	Reconciling items	Per quarterly consolidated financial statements
	brand fashion business	tire wheel business	real estate leasing business			
Sales						
Revenue from contracts with customers	107,120,446	4,661,687	—	111,782,134	—	111,782,134
Other revenue	—	—	33,509	33,509	—	33,509
Revenues from external customers	107,120,446	4,661,687	33,509	111,815,643	—	111,815,643
Transactions with other segments	—	—	234,059	234,059	(234,059)	—
Net sales	107,120,446	4,661,687	267,568	112,049,702	(234,059)	111,815,643
Operating profit	4,579,230	386,425	87,977	5,053,633	33,017	5,086,650

(Note) 1. Segment income matches the operating income in the quarterly consolidated statements of income.

2. Other revenue is based on the Accounting Standard for Lease Transactions (ASBJ Statement No. 13)

3. The segment income adjustment of 33,017 thousand yen includes the elimination of inter-segment transactions of 955,510 thousand yen and company-wide expenses of -922,493 thousand yen that are not allocated to any of the reportable segments. Company-wide expenses mainly consist of general and administrative expenses that do not belong to any reportable segment.

2. Non-current assets impairment losses, goodwill and other information for each reportable segment

(Significant impairment losses in non-current assets)

Based on the "Accounting Standards for Impairment of Fixed Assets," the book value of building equipment, etc. that has been found to be impaired due to a decline in profitability due to changes in the market and environment, etc. is reduced to its recoverable amount, and the amount of the decrease was recorded as an impairment loss of 7,823 thousand yen as an extraordinary loss. By segment, sales amounted to 5,782 thousand yen in the "Brand Fashion Business" and 2,040 thousand yen in the "Tires and Wheels Business."

(Significant changes in the amount of goodwill)

In the Brand Fashion business, goodwill in the amount of 1,574,908 thousand yen was generated due to the acquisition of all shares of RK Enterprise Co., Ltd.

(Significant gain on negative goodwill)

In the Brand Fashion business, the Company posted gains on bargain purchase in the amounts of 350,273 thousand yen and 137,257 thousand yen, which were generated due to the acquisition of all shares of Rodeo Drive Japan Co., Ltd. and RS-JAPAN Co., Ltd., as extraordinary income.

II For the three months ended December 31, 2025 (from April 1, 2025 to December 31, 2025)

2. Net sales and income (loss) for each reportable segment and the breakdown of revenue

(Thousands of yen)
